

Complete Range of VDI Clients

Leveraging its 25-year heritage as a desktop technology leader, ViewSonic delivers a full line of thin, zero, and smart clients to help organizations transform their IT resources into a cloud computing infrastructure. Whether running a VMware®, Citrix®, or Microsoft® virtualization initiative, you can quickly and easily deploy virtual desktops across your entire enterprise with ViewSonic's complete range of VDI clients.

Smart Display Clients

Zero Client Monitors

Benefits Over the Traditional Desktop

- ▶ **Security** – With no local file saving needed, all critical information is safe on the server.
- ▶ **Manageability** – Thin and zero clients can be deployed in a matter of minutes. There is typically no need for patching the OS or installing anti-virus software.
- ▶ **Reliability** – With no moving parts, a thin or zero client device can typically last twice as long as a traditional PC.
- ▶ **Scalability** – Easily add resources as needed to support a few hundred, or tens of thousands, of users.
- ▶ **Energy savings** – A typical VDI client uses less than 30 watts of energy (including the monitor), compared to about 150 watts for a typical PC. This results in roughly 80% energy savings and up to \$30 annual savings per user.
- ▶ **Lower TCO** – The lower cost of endpoint devices, lower energy consumption, maximized resource utilization, and reduced management resources all ultimately lead to a lower total cost of ownership.
- ▶ **3-year limited warranty** – With a dedication to quality, ViewSonic provides a 3-year limited warranty for all of our VDI client devices.

Thin & Zero Clients

VDI Clients

Delivering Tomorrow's
Virtual Desktop Today

ViewSonic® Thin Clients

Optimized for Citrix and Microsoft

The ViewSonic SC-T35 and SC-T45 thin clients are the perfect choice for either Citrix® XenDesktop® or Microsoft® VDI implementations. ViewSonic thin clients are ideal endpoint solutions for providing desktop virtualization in conjunction with existing infrastructures—they can be mounted to any VESA-ready monitor. In addition, the SC-T35 and SC-T45 support professional graphics applications and deliver a multimedia rich virtual desktop, with excellent 2D/3D graphics.

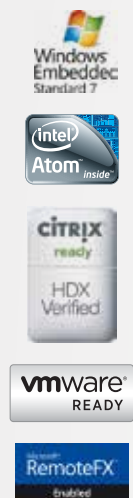

SC-T35 Thin Client

Dual Port 2.0 USB ports

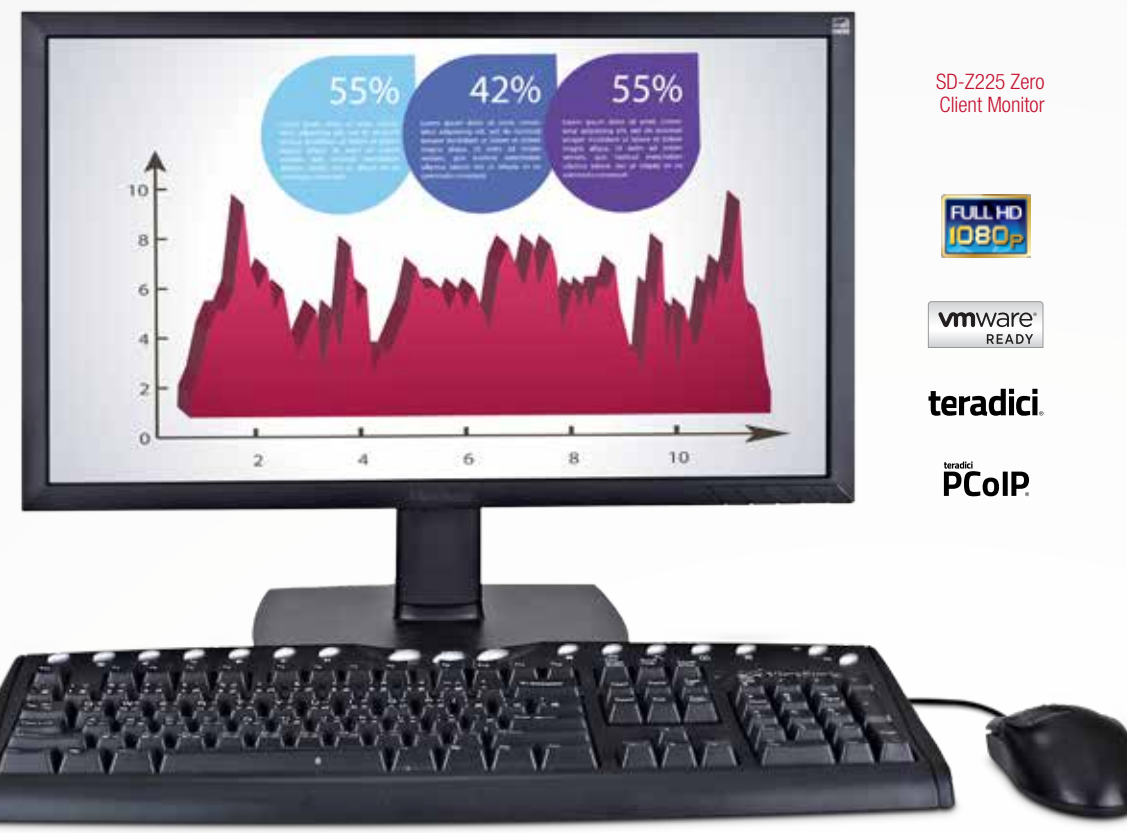

SC-T45 Thin Client

Thin Clients

Product	Screen	CPU	Memory	OS	Communication	Connectivity	Virtualization
SC-T35 Thin Client	—	TI DM8148 ARM	1GB System 512MB Flash	Linux	Ethernet 10/100/1000 MB Wireless (optional)	DVI-I / DVI-D / USB (x4) / RJ45	Citrix / VMware / Microsoft
SC-T45 Thin Client	—	Intel Atom® N2800 Dual Core	2GB System 4GB Flash	Windows® Embedded Standard 7	Ethernet 10/100/1000 MB Wireless (optional)	DVI-D / VGA / USB (x4) / RJ45	Citrix / VMware / Microsoft

SD-Z225 Zero Client Monitor

ViewSonic® Zero Clients

Certified for VMware® Horizon View™

ViewSonic's zero client devices are the perfect solution for companies that demand a high-performance desktop PC experience, with added security and manageability in VMware-based networks.

The ViewSonic SC-Z55 is the ideal standalone zero client adapter that can be used in conjunction with existing displays. For applications that require greater desktop space savings, ViewSonic offers two zero client models with an integrated display. The SD-Z225 is a 22" zero client display, while the SD-Z245 features a larger 24" integrated display.

All ViewSonic zero clients are certified as VMware Horizon View Clients to ensure optimum performance, security, and network compatibility. With no local storage or moving parts, they are the ultimate in reliability and energy savings.

► **Optimized performance:** Designed with Teradici's Tera 2312 SoC (5-times faster than its previous generation) to deliver virtual desktops with full 2D/3D graphics and video capabilities.

► **Dual display connectivity:** All ViewSonic zero clients support dual displays for increased office productivity.

► **Quick and easy deployment:** Logo certified with both VMware and Teradici to ensure easy connectivity, performance, and network compatibility.

► **Teradici PCoIP Management Console compatible:** Web-based software provides central management and control of zero clients throughout the network, available from Teradici at no charge.

► **Greater TCO savings:** All solid-state design for greater reliability, low power energy savings, easy deployment, and centralized device management software contribute to greater total cost of ownership savings.

SD-Z245 Zero Client Monitor

Zero Clients

Product	Screen	CPU	Memory	OS	Communication	Connectivity	Virtualization
SC-Z55* Zero Client	—	Teradici® Tera 2321	512MB System	—	Ethernet 10/100/1000 MB	DVI-I / DVI-D / USB (x4) / RJ45	VMware
SD-Z225 Zero Client Monitor	22" LED (21.5" viewable)	Teradici® Tera 2321	512MB System	—	Ethernet 10/100/1000 MB	VGA-In/DVI-I Out USB (x4) / RJ45	VMware
SD-Z245 Smart Display Client	24" LED (23.6" viewable)	Teradici® Tera 2321	512MB System	—	Ethernet 10/100/1000 MB w/built-in Wireless	VGA-In/DVI-I Out USB (x4) / RJ45	VMware

*Also supports high-resolution single display at 2560x1600 with separate dual-link DVI cable. (Not Included)

ViewSonic® Smart Display Clients with Citrix® Worx Home

Managed and Secure Desktops for Android™

Integrated with Citrix® Worx Home, ViewSonic SD-A225 and SD-A245 smart display clients, leveraging Citrix XenMobile, allow an IT organization the ability to use a single tool to fully provision and manage both their mobile and desktop devices in addition to allowing users to access enterprise-ready apps.

The SD-A225 and SD-A245 smart display clients provide corporate and enterprise end-users with an innovative, next-generation thin client—all within an LED touch screen form factor. In addition to all the benefits that traditional thin clients offer such as security and manageability and lower power usage, ViewSonic smart display clients optimize the delivery of Windows, Web and Mobile apps to maximize user productivity.

ViewSonic Delivers Tomorrow's Virtual Desktop Today

► **Run local Android apps:** Leverage the thousands of third-party mobile apps available in Android markets to improve productivity, training, travel, finance, or other needs of your organization. With Citrix Worx Home, IT organizations can even create their own library of approved enterprise-ready apps that users can download directly. This allows end-users a level of personalization, but also ensures the security and central management needed by the IT organization.

► **Direct access to SaaS applications:** With a built-in high-performance browser and full HTML5 support, ViewSonic smart display clients allow end-users to access cloud-based applications with the comfort of a large LCD screen, keyboard, and mouse for greater productivity. Specific URL links to approved SaaS applications can also be easily managed across all devices, groups, and individual users with Citrix Worx Home.

► **Advanced VDI desktop client:** All with a single device, an IT organization can deliver legacy Windows apps and virtual Windows PC desktops for business continuity in the post-PC era. As the needs of an organization grow, additional Citrix technology and services can easily be integrated and deployed.

SD-A245 Smart Display Client

Smart Display Clients

Product	Screen	CPU	Memory	OS	Communication	Connectivity	Virtualization
SD-A225 Smart Display Client	22" LED (21.5" viewable)	TI OMAP 4470 Dual Core 1.5GHz	1GB System 8GB Flash	Android™ w/XenMobile®	Ethernet 10/100/1000 MB w/built-in Wireless	HDMI (micro) / USB (Type-A x2, micro x1) / micro SD reader / RJ45	Citrix XenMobile
SD-A245 Smart Display Client	24" LED (23.8" viewable)	NVIDIA Tegra® 33	1GB System 8GB Flash	Android™ w/XenMobile®	Ethernet 10/100/1000 MB w/built-in Wireless	HDMI / USB (Type-A x2, micro x1, mini x1) / SD card reader / RJ45	Citrix XenMobile
